EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Nam Huynh on August 19, 2009.

The application has been amended as follows:

11. (Currently Amended) One or more computer-readable storage media having computer-useable instructions embodied thereon, the instructions, when executed on a computing device, cause the computing device to:

receive a first request via an out-of-band process to establish [[a]] an out-of-band communications pathway with a network device; wherein the out-of-band access communications pathway includes a firewall, a first server, a modem bank, and a public switched telephone network;

receive a security identifier to authenticate said first request;

identify a dial-up number for accessing a remote modem;

capture information associated with said first request to a log file;

direct a server to identify one of a plurality of modems located in [[a]] the modem bank that can provide feedback related to said network device;

authenticate a second request, said second request being a request to access said remote modem;

authenticate a third request, said third request being a request to access said network element; and

transmit data for communicating operational status of the network element between the network element and a user computing device over ~~a secure~~ an in-band pathway established between the user computing device and

the network element, the in-band pathway includes the firewall and a router, and wherein the in-band access path from the firewall to the remote network element and the out-of-band access path from the firewall to the remote network element are two distinct paths.

The following is an examiner's statement of reasons for allowance: Staples teaches having an in-band and out-of-band communication path. As explained in applicant's remarks filed July 16, 2009, Staples fails to teach the in-band path and out-of-band path being two separate and distinct paths as defined by applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CORDELIA KANE whose telephone number is (571)272-7771. The examiner can normally be reached on Monday - Thursday 8:00 - 5:00 EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gilberto Barron can be reached on 571-272-3799. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
